**DRAFT - APPENDIX C:
MAUI HIKINA ARCHIVAL INVENTORY
OF TRANSFER DOCUMENTS
(Compiled by Kumu Pono Associates LLC)**

761

The inventory of 1,690 documents and figures below is organized by primary sources/topics. A number of the records are cited in the accompanying manuscript, Maui Hikina – E Ho’oponopono ‘Āina (East Maui – Restoring Balance to the Living Environment); other archival documents—not specifically cited in the manuscript—cover the region, the relationship of resources with the adjoining moku (districts), descriptions of traditional and customary practices in the islands, native law and access to water, and some of the historic actions that have led to significant changes in the biocultural landscape of Maui Hikina. The archival resources many (though not all) of the names of Native Hawaiian families who share ancestral ties to the biocultural landscape of Maui Hikina. These records offer guidance to readers in further research that the Watershed Hui may wish to undertake.
